Subject: Proposed changes to CrR 4.11

Ms. Faulk,

I'd like to let you know that I support the proposed changes to CrR 4.11 that would allow defense lawyers to record defense witness interviews or use a court reporter for stenographic notes.

This would be an invaluable tool to help safeguard effective assistance of counsel and the rights of those accused. Please understand that when a person is truly an innocent man or woman, the defense can't start from a disadvantage. And it does happen that the truly innocent are accused, convicted, and doomed.

Thanks,

Ted
